I am pleased to be associated with the 2nd PhotoVivo International Photography Award or PIPA as it is known internationally.

Photographic art has become more popular with the masses since early 2000s when we see many digital cameras being rolled out. Today, digital photography is a norm and almost everyone takes pictures, be it with a camera or with a smart phone.

With advancement in technology, I am glad to hear that PIPA has capitalise on it to facilitate the process of administration. It has proven that technology can help in productivity with minimal errors and maximum efficiency. With internet as a platform, we can also reach out faster to photographers from all over the world much faster with emails, social media platform etc.

This is how the power of technology brings people from different corners of the world together. This has allowed PIPA to gain a better outreach to more photographic artists without borders.

I would like to commend the efforts of PhotoVivo in promoting the art of photography to a wider audience. I also congratulate all the prize winners of this year's PIPA.

Kwek Leng Joo
JP, BBM, PBM
Deputy Chairman
City Developments Limited
Honorary Patron, PhotoVivo

The photography scene in Singapore has gained popularity among the masses in recent years, undoubtedly due to many new photography initiatives such as the PhotoVivo Singapore International Photography Award (PIPA). Since its inception in 2013, PIPA has made a name for itself as being a platform for local and international photographers to share their photo works. This year, more than 4,000 entries were submitted by professional and amateur photo enthusiasts from over 47 countries.

The 2nd edition of the PIPA continues in its mission to promote international friendship among photographers, and aims to raise the bar for local photographers at the international level. This is in line with the nation's vision of becoming a vibrant international arts hub.

I am heartened to see that PIPA has reached new heights this year, with new photographers and works that are yet to be featured in other Salons. The new open category 'Projected Image Nature' received more than 600 entries. Testament to PIPA's standing in the international photography arena, this edition of the award received added recognition from renowned governing bodies such as the United Photographers International (UPI) and the International Association of Art Photographers (IAAP). Along with the support of The Photographic Society of America (PSA) and the Royal Photographic Society of Great Britain (RPS), local photographers are given an opportunity for their works to be recognised on an international platform. This will offer valuable regional and international exposure for our local photographic talents.

I would like to congratulate the winners of the 2nd PIPA and commend the organisers behind PIPA for their exemplary efforts. I wish the exhibition every success, and hope that the Salon will bring rewarding and exciting experiences to all participants.

2nd PhotoVivo Singapore International Photography Award

I am glad to see the fruition of the 2nd PIPA with the concluding exhibition graced by Minister Tan Chuan Jin, Mr Kwek Leng Joo, His Excellencies from the embassies and distinguished guests. This year has been a tough year for us all with lack of sponsorship funding as most of the funds have been channeled into the various channels celebrating Singapore's 50th Anniversary. But with perseverance and determination, we managed to push through.

The 2nd PIPA saw the introduction of patronage of 2 international bodies of photography alongside The Photographic Society of America and the Royal Photographic Society. The network of photographers from the 2 bodies, being United Photographers International (UPI) and the International Association of Art Photographers (IAAP), saw numerous new works which are mostly unseen in the region's Salons. The 2nd PIPA also saw more prizes being conferred with the addition of the patronage of the 2 international bodies and the addition of a new section in Nature.

To achieve our objective in bonding friendship through photography, we conduct the PIPA judging with judges from Singapore, Malaysia and Thailand. Moving on, we already have plans for our 3rd PIPA, inviting more judges from the region to bring about a good mix in the judging panel, and very likely, the PIPA shall include seminars and photo shoots.

Doing a project of this scale is costly, and it will not be possible without the support from our sponsors and the participants. The judges from the 3 countries are all very experienced in the Salon circuit and they have done a great job in selecting the best from the collection. We try to keep our working committee lean and effective, and I must applaud their great effort in making the operation seamless and smooth.

I would like to congratulate all the winners in PIPA and also thank the sponsors, the participants, the judges and the Salon Committee for making the 2nd PIPA such a great success. No doubt, PIPA showcases some of the best works from around the world. Let's look forward to the 3rd PIPA with anticipation.

The PIPA award has been recognising names and people who strongly believe in his / her own work, visions and aspired to be the outstanding individual. The creative nature of these talents have shared their thoughts through excellent photography and digital manipulative techniques, that challenges the conventional as well as re-educating everyone to think beyond the standard. Such in the case of SIGMA and our incessant belief in the very excellent and unique FOVEON X3 3-layer camera sensor; because we in SIGMA knows how fascinating the picture output quality FOVEON X-3 sensors can achieve for photographers all over the world that's virtually unrivalled in its class.

It is our pleasure to be involved in the PIPA as part of our commitment to promote photography to all amateur and professional photographers all over the world. Digital photography is ever evolving with new technology and products which serve to make photography a better experience for all, and especially for those participants in this section that saw creative digital works from the photographers who challenged the limits of the hardware and software.

Recognising this very specific need to be on top with the best, we at SIGMA has objectivised to be the BEST LENS SPECIALIST; challenging the original brand lens makers themselves. We at Sigma believe in providing optimal quality in our products for photographers to push their photography works to the fullest in digital photography, where only THE IMAGINATION is the limit! It is ONLY with good photography equipment, coupled with the photographers' creativity and skills, that create exceptional works that they can be proud of.

For this very same reason, SIGMA introduced our new SIGMA GLOBAL VISION movement (SGV in short) ; where our SIGMA designers and engineers created a global phenomenon with optically exceptional lens such as the 35mm F1.4 ART lens, as well as the FASTEST ZOOM LENS IN THE WORLD, the 18-35mm ART lens with a constant aperture of F1.8. SIGMA's belief in pushing the boundary of our design imagination led us to such phenomenal products, that we can share with aspiring and artistic photographers all over the world.

Congratulations to the winners and to the photographers who performed well in PIPA.

CITY DEVELOPMENTS LIMITED

OVER 50 YEARS of TRUST

At CDL, beyond developing city structures and architectural icons, we create vibrant environments that last lifetimes. Our buildings may transform the physical landscape, but it is culture and heritage that can connect the community with the cityscape.

A recipient of the Patron of the Arts Awards since 1997, our commitment to and support of the arts today remain as strong as ever. From providing platforms such as the CDL Singapore Sculpture Award and the CDL Singapore Young Photographer Award to showcase creative talent; to nurturing art appreciation through supporting programmes such as the PhotoVivo Singapore International Photography Award, CDL continues to shape Singapore's cultural landscape.

We are honoured to be recognised with the Distinguished Patron of the Arts Award since 2011.
